Group Hug's Policy Statement on Assisted Suicide

Group Hug seeks to support all people, along with their families and friends, with a range of conditions, from Cancer to Mental Health, the Menopause to Family related issues, irrespective of their personal beliefs on assisted suicide.

Group Hug complies with the law in all its activities. Group Hug neither supports nor opposes a change in the law on assisted suicide.

Group Hug believes assisted suicide is an issue for government and parliament to consider and legislate upon, reflecting the values and views of society as a whole.

Implementation of Policy

This Policy shall be deemed effective as of 16th May 2021. No part of this Policy shall have retroactive effect and shall thus apply only to matters occurring on or after this date.
